New Source Review newspaper advertisements for construction permit applications, July 24, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: July 22, July 23, or July 24, 2008. Public notices are generally published every two weeks. The previous publication of public notices was July 10, 2008.

## **PUBLIC NOTICE**

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Weigel's #64</u>, with a mailing address of <u>P.O. Box 650</u>, <u>Powell, TN 37849</u>. They seek to obtain an air contaminant permit (Division identification number: <u>01-0242-01/62115</u>) for construction of a <u>Gasoline Dispensing Facility</u> located at <u>2413 Andersonville Highway, Clinton, TN 37716</u>. This proposed operation would consist of two gasoline storage tanks and appurtenant gasoline dispensing equipment. Stage I vapor recovery equipment would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Anderson County Oak Ridger - publish once on or before Thursday, July 24, 2008.

The applicant is Fresenius Medical Care – North America with a mailing address of 920 Winter Street, Waltham, MA 02451. They seek to obtain an air contaminant permit (Division identification number: 10-0133-01/62146) for an installation of a Stand-by Generator at 1210 Militia Court, Elizabethton, TN 37643. This proposed operation would consist of a stand-by diesel generator. It will be used only for the purpose of providing stand-by electrical power to avoid an interruption in the dialysis treatment. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Carter County *Elizabethton Star* -- publish once on or before Thursday, July 24, 2008.

The applicant is <u>Hommel Concrete Co.</u> with a mailing address of <u>P.O. Box 762</u>, Newport, <u>TN 37822</u>. They seek to obtain an air contaminant permit (Division identification number: <u>15-0116-01/62060</u>) for construction of a <u>Portable Rock Crushing Operation</u> located at <u>Boyer Island</u>, Newport, <u>TN 37821</u>. This proposed operation would consist of crushing, screening, and conveying operations used to produce crushed stone. The crusher would be powered by an internal combustion engine, which would be fueled by number 2 fuel oil. Wet suppression would be used for control of particulate emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Olga Jacobsen is the assigned Division person.

For the Cocke County Newport Plain Talk -- publish once on or before Thursday, July 24, 2007.

1

The applicant is Minco, Inc., with a mailing address of 510 Midway Circle, Midway, TN 37809. They seek to obtain an air contaminant permit (Division identification number: 30-0129-41/62136) for modification of an existing Fused Silica Production Facility located at the same address. This existing operation consists of blending and screening equipment used to produce fused silica. The requested modification is for an increase in the allowable production rate and the addition of blending, screening, and packaging capacity. This emission source uses a baghouse to control particulate emissions, and the applicant proposes to install an additional baghouse to control emissions from increased production. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. T. Blake is the assigned Division person.

For the Greene County *Greeneville Sun* -- publish once on or before Thursday, July 24, 2008.

The applicant is Arthur Blank & Company, A Division of American Bank Note Company with a mailing address of 7025 Industrial Park Road, Mount Pleasant, TN 38474. They seek to obtain an air contaminant permit (Division identification number: 60-0205-04/62001) for construction of a Non-heatset Lithographic Printing Operation located at the same address. This proposed construction would consist one ultraviolet radiation cured lithographic printing press. Because of the amount and type of pollutants, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Sarosh Kaiser is the assigned Division person.

For the Maury County *Daily Herald* -- publish once on or before Thursday, July 24, 2008.

The applicant is <u>U. S. Utility Enclosures</u>, <u>LLC</u> with a mailing address of <u>2230 Highway 11 North</u>, <u>Sweetwater</u>, <u>TN 37874</u>. They seek to obtain an air contaminant permit (Division identification number: <u>62-0166-01/62073</u>) for construction of a <u>Polymer Concrete Casting Operation</u> at <u>the same address</u>. This proposed operation would consist of equipment used in polymer concrete casting. Because of the amount and type of emissions, the use of control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the *Monroe County Advocate* --publish once on or before Thursday, July 24, 2008.

## FIRST APPLICANT:

The applicant is New Generation Aries Boats, Inc. with a mailing address of 7152 New Hope Road, Fairview, TN 37062. They seek to obtain an air contaminant permit (Division identification number: 94-0307-01/61979) for construction of a Fiberglass Boat Manufacturing Operation located at the same address. This existing operation consists of fiberglass cutting, grinding, sanding, molding and gelcoat processes and associated equipment used to manufacture fiberglass boats. Exhaust filters are used for pollution control. New Generation Aries Boats, Inc. has applied to the Tennessee Air Pollution Control Division (TAPCD) for a federally enforceable state operating permit to opt out of being subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). New Generation Aries Boats, Inc. has agreed to be bound by a permit that limits their potential to emit for volatile organic compounds (VOCs) and hazardous air pollutants (HAPs) such that they are below the applicability thresholds of 10 tons per year for a single HAP and 25 tons per year for total HAPs. New Generation Aries Boats, Inc. has also agreed to use record keeping to prove they are abiding by more restrictive emission limits. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. E. Peeler is the assigned Division person.

## SECOND APPLICANT:

The applicant is <u>Kroger Fuel Center L-594</u> with a mailing address of <u>10168 Linn Station Rd, Louisville, KY 40223</u>. They seek to obtain an air contaminant permit (Division identification number: <u>94-0312-01/62139</u>) for construction of a <u>Gasoline Dispensing Facility</u> at <u>4904 Port Royal Road, Spring Hill, TN 37174</u>. This proposed Air Pollution Control

Jul 2408 rev 1-web.doc

operation would consist of three (3) underground tanks and eight (8) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Williamson County Williamson A.M. -- publish once on or before Thursday, July 24, 2008.

The applicant is <u>Thorntons</u>, <u>Inc. #606</u> with a mailing address of <u>10101 Linn Station Rd</u>, <u>Louisville</u>, <u>KY 40223</u>. They seek to obtain an air contaminant permit (Division identification number: <u>95-0304-01/62116</u>) for construction of a <u>Gasoline Dispensing Facility</u> at <u>Rt. 109 & Leeville Pike</u>, <u>Lebanon</u>, <u>TN 37087</u>. This proposed operation would consist of two (2) underground tanks and twenty (20) gasoline nozzles. A Stage I and Stage II vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Wilson County Lebanon Democrat -- publish once on or before Thursday, July 24, 2008.

The applicant is <u>Standard Aero (Alliance)</u>, <u>Inc.</u> with a mailing address of <u>1029 Ross Drive</u>, <u>Maryville TN 37801</u>. They seek to obtain an air contaminant permit (Division identification number: <u>05-0172-05/62148</u>) for construction of a <u>Jet Engine Testing Operation</u> located at the same address. This existing operation consists of Jet Engine Test Facility Fan Cell No.2. The source would be required to use Best Available Control Technology (BACT) to reduce emissions of nitrogen oxides and volatile organic compounds. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. Olga Jacobsen is the assigned Division person.

For the Blount County *Maryville Daily Times* -- publish once on or before Thursday, July 24, 2008.
